Black Bloodlines Calvin Evans

This book is a well-documented compilation of historical data about the true racial identity of the ancient Hebrew people. Citing biblical references and many works by prestigious historians and scholars, Calvin Evans has created a work that challenges the mainstream position about the ethnicity of the ancient Hebrews. The author traces the patriarch Abraham's genealogical lineage, Hebrew customs, and geographical evidence to cement his findings.

Black Bloodlines is a well-researched, informative and thought-provoking book. Evans has made a convincing argument that the ancient Hebrews were Black. Black Bloodlines is a must-read book for anyone who wants to trace the presence of Black people in the Bible.
