**Systemic Interventions for Collective and National Trauma: Theory, Practice, and Evaluation** Michal Shamai

*Systemic Interventions for Collective and National Trauma* explains the theoretical basis for understanding collective and national trauma through the concept of systems theory, and gives ways of implementing systems theory in interventions at the micro, mezzo, and macro levels. Particular attention is given to the use of socio-political and cultural aspects of interventions with victims, as well as to the ethical codes that social workers and other mental health professionals need to integrate in their work with collective/national trauma. Separated into two distinct parts on theory and practice, this volume is appropriate for practitioners as well as students in advanced courses.
