The Early Christian World (Routledge Worlds) Philip F. Esler

Early Christian World presents an exhaustive, erudite and lavishly illustrated treatment of how the small movement which formed around Jesus in Galilee became the pre-eminent religion of the ancient world.

The work begins by firmly situating early Christianity within its Mediterranean social, political and religious contexts, before charting the history of the first Christian centuries. The creation and perpetuation of Christian communities through various means, including mission and monasticism, is explored, as is the everyday experience of early Christians, through discussion of gender and sexuality, religious practice, communication and social structures. The intellectual (particularly theological) and artistic heritage of the period is fully considered, and a vivid picture painted of the internal and external challenges faced by early Christianity. The book concludes with profiles of the most notable figures of the age.

Comprehensive and accessible, *Early Christian World* provides up-to-date coverage of the most important topics in the study of early Christianity, together with an invaluable collection of visual material. It will be an indispensable resource for anyone studying this period
