King Charles Ruby was born to rule the world. Under his mother's care he has always known it, and now, with no small amount of help from a few friends in influential places, he's been elected President of the United States. Turning his back on the promises he made during his presidential campaign of 2000, K. Charles sets off to claim what he sees as his birthright -- world domination. The political war rages between church and state, between the powerful and the powerless, and Dr. Josephine Peoples ("Just call me Josie," she always insists), from the small rural town of New Salem, Mississippi, finds herself right in the middle of it. Praying to God for guidance, Josie tries to make sense of her new chaotic world of lies, betrayal, and government cover-ups that threaten to tear the country apart. Strong in her convictions and disappointed at the realization that some of the people she passionately believed in have become the opposite of their public personae, she presses on, determined to do what she can to wrest the power away from those who would abuse it and place it into the hands of good men. Can Josie help to turn this administration away from evil? Can she prevent the government from blatantly denying American citizens their most basic and fundamental rights? Can she help expose the upcoming "terrorist attack" for what it really is: a political maneuver by the Ruby administration? And perhaps most importantly, can she help the presumptive King of the world to become a Servant to God before it's too late for the country -- or his soul?
