## **Common Sense Revival** Tiffany Twain

This book revives the spirit of Thomas Paine's bestselling pamphlet, *Common Sense*, and advocates independence from the tyranny of the people and entities that are abusing power in modern times: large corporations and people who push for expanded privileges for the wealthiest 1% of Americans at the expense of all others. An overarching Bill of Rights for Future Generations is proposed in *Common Sense Revival* that should be used to help guide our national decision-making. The perspectives of Mark Twain are also brought to bear, and extensive analysis is made of the best ways to a more salubrious future. And a Sustainability Index provides an excellent gauge of the status of our efforts to create a thriving and sustainable human civilization.
