Comparative Studies in Romanian Syntax (North-Holland Linguistic Series: Linguistic Variations) (Waste Management Series)

Volume 58 of the "North Holland Linguistic Series," edited by Virginia Motapanyane, provides an up-to-date overview of studies in Romanian syntax. Bringing together linguists working within the field of generative grammar, the volume's comparative approach demonstrates the relevance of Romanian data to grammatical theory. The editor's introductory chapter provides a valuable summary of developments in Romanian syntax and is the ideal preparation for the studies contained in this volume, both for Romance specialists and for those less familiar with the topic.
