Emphasizing substantive issues rather than intricate statistical details, this book provides a comprehensive introduction to LISREL for structural equation modeling (SEM) using a non-technical, user-oriented approach that. The emphasis is on:

- exposing the reader to the major steps associated with the formulation and testing of a model under the LISREL framework

- describing the key decisions associated with each step

- highlighting potential problems and limitations associated with LISREL modeling

- assisting the interpretation of LISREL input and output files.

The overall aim is to provide a critical understanding of what is really involved in LISREL modeling and sensitize the re
