## Advances in Electromagnetics of Complex Media and Metamaterials (Nato Science Series II:)

The NATO Advanced Research Workshop Bianisotropics 2002 was held in th Marrakesh, Morocco, during 8-11 May 2002. This was the 9 International Conference on Electromagnetics of Complex Media, belonging to a series of meetings where the focus is on electromagnetics of chiral, bianisotropic, and other materials that may respond to electric and magnetic field excitations in special manner. The first of these meetings was held in Espoo, Finland (1993), and the following venues were Gomel, Belarus (1993), Perigueux, France (1994), State College, Pennsylvania, USA (1995), the rivers and channels between St. Petersburg and Moscow in Russia (1996), Glasgow, Scotland (1997), Brunswick, Germany (1998), and Lisbon, Portugal (2000). The present book contains full articles of several of the presentations that were given in the Marrakesh conference. In Bianisotropics 2002, 8 re view lectures, 14 invited lectures and 68 contributed talks and posters were presented. Of these presentations, after a double review process, 28 contributions have achieved their final form on the pages to follow. From the contributions ofthe meeting, also another publication is being planned: a Special Issue of the journal Electromagnetics will be devoted to complex materials. Guest editors for this issue are Keith W. Whites and Said Zouhdi. The chairmen of Bianisotropics 2002conference were Said Zouhdi (Pierre et Marie Curie University - Paris) and Mohamed Arsalane (Cadi Ayyad University - Marrakesh), who were assisted by Scientists from Moroccan Universities and the International Bianisotropics Conference Committee.

### **From reader reviews:**

#### **Ann Gross:**

This Advances in Electromagnetics of Complex Media and Metamaterials (Nato Science Series II:) are generally reliable for you who want to be considered a successful person, why. The key reason why of this Advances in Electromagnetics of Complex Media and Metamaterials (Nato Science Series II:) can be among the great books you must have will be giving you more than just simple examining food but feed you with information that might be will shock your previous knowledge. This book is usually handy, you can bring it all over the place and whenever your conditions in e-book and printed people. Beside that this Advances in Electromagnetics of Complex Media and Metamaterials (Nato Science Series II:) giving you an enormous of experience like rich vocabulary, giving you trial of critical thinking that we realize it useful in your day pastime. So , let's have it and enjoy reading.

#### **Elizabeth Blake:**

The e-book untitled Advances in Electromagnetics of Complex Media and Metamaterials (Nato Science Series II:) is the publication that recommended to you to study. You can see the quality of the reserve content that will be shown to anyone. The language that publisher use to explained their ideas are easily to understand. The copy writer was did a lot of research when write the book, so the information that they share to your account is absolutely accurate. You also can get the e-book of Advances in Electromagnetics of Complex Media and Metamaterials (Nato Science Series II:) from the publisher to make you more enjoy free time.

#### **Bertha Wood:**

Is it a person who having spare time subsequently spend it whole day simply by watching television programs or just lying down on the bed? Do you need something totally new? This Advances in Electromagnetics of Complex Media and Metamaterials (Nato Science Series II:) can be the solution, oh how comes? It's a book you know. You are and so out of date, spending your free time by reading in this new era is common not a nerd activity. So what these ebooks have than the others?

#### **Bonnie Parker:**

E-book is one of source of knowledge. We can add our understanding from it. Not only for students but additionally native or citizen want book to know the up-date information of year to year. As we know those books have many advantages. Beside we add our knowledge, also can bring us to around the world. By book Advances in Electromagnetics of Complex Media and Metamaterials (Nato Science Series II:) we can have more advantage. Don't that you be creative people? Being creative person must prefer to read a book. Just simply choose the best book that suited with your aim. Don't possibly be doubt to change your life by this book Advances in Electromagnetics of Complex Media and Metamaterials (Nato Science Series II:). You can more pleasing than now.
