It's Our Military Too: Women and the U.S Military (Women In The Political Economy) Judith Stiehm
In the last twenty-five years the U.S. military has seen the abolition of women's separate corps, the appointment of women generals, and an unprecedented increase in the ratio of women to men. Also, women are now permitted to serve on combat planes and ships. Despite these developments, most civilians know very little about women in the military. This collection includes unusual accounts by women on active duty, retired officers, women who have worked for the armed forces in a civilian capacity, and civilian academics. The book offers insights on a variety of pressing issues including minority women, lesbians, combat, the role of gender in weapons design, and the changing mission of the military. Through personal accounts and commentaries, this book dispels many of the myths about women and the military and explores the reasons for the persistence of misconceptions in the face of increased female participation. This comprehensive effort will be of interest to anyone who wants to know the truth about women in the armed forces and will be a wake-up call to women who feel that the military is irrelevant to them. Author note: Judith Hicks Stiehm is Visiting Professor, Peacekeeping Institute, U.S. Army War College, and Professor of Political Science, Florida International University.
