Management of the Difficult and Failed Airway Orlando Hung, Michael Murphy

The first exclusive guide to the management of the difficult and failed airway -- presented by a team of international experts

A Doody's Core Title for 2011!

4 STAR DOODY'S REVIEW!

"The purpose is to present a consistent approach to the difficult and failed airway in all clinical settings. The potentially catastrophic consequences of failed airway management make this a vitally important goal, and the authors have produced a book that teaches how to avoid or minimize these risks....This well written book provides a well integrated approach to the management of difficult airways. It remains readable while being comprehensive. It certainly should be required reading for any clinician involved in airway management."--*Doody's Review Service*

Edited by two of the field's luminaries, *Management of the Difficult and Failed Airway* brings together international experts who offer essential, never-before-published insights into the identification and management of difficult and failed airways.

No other text has ever presented the fundamental principles of airway assessment and management, along with a consistent, case-based approach to the difficult and failed airway in all clinical settings: in the field, the emergency department, on the wards and ICU's, and in perioperative settings. Multidisciplinary in scope, *Management of the Difficult and Failed Airway* encompasses the key areas of anesthesia, hospitalists, intensivists, emergency medicine, and paramedicine.

Features:

- Skill-building insights that cover all devices and skills required to handle most difficult and failed airways
- Mnemonics and easy-to-follow algorithms in nearly every chapter
- Engaging chapter-ending questions and answers
- Logical four-section organization: devices, techniques, difficult populations, and "practical considerations"
- Illustrated with color photographs throughout
- Conversational writing style, with headings phrased as questions commonly raised by physicians and practitioners-in-training
- The ideal accompaniment to "The Difficult Airway Course," conducted by the editors
- Companion DVD with videos of airway techniques and devices
