How We Saw the World (Native Legends (Paperback)) C.J. Taylor

All peoples have their own stories of how the Earth was created, what separated the land from the seas, and how the many animals, fish, and other creatures came to have their particular characteristics. The native tribes of North America are no different: they too have stories about the “way things began.” A fascinating collection of tales that explain the origins of tornadoes, forest fires, butterflies, horses, Niagara Falls, why dogs are our best friends, and even a very funny story of why owls and rabbits look the way they do.
