**Introducción a la fraseología española. Estudio de las locuciones (Spanish Edition)** Mario García-Page Sánchez

Está concebido como un manual de estudio de la fraseología del español centrado en el análisis de lo que ha venido considerándose el núcleo de la fraseología: la locución, que entronca con la visión "estrecha" de la fraseología que privilegió J. Casares en el pionero estudio de la fraseología española (Introducción a la lexicografía moderna, 1950). En este sentido se aparta notablemente de otros 'manuales' recientes (Corpas Pastor, Burger...) que, adoptando una concepción "ancha" de la disciplina, le escatiman espacio a la locución en favor de las unidades periféricas de la fraseología.
