Other Dimensions Irwyn Greif

"This book is the latest book by author Irwyn Greif and is the culmination of a lifetime of psychic experiences and revelations and communications with Angels and UFOs. In order to achieve this book the author's consciousness had to be "raised" to an angelic level. Although there are many books written on these subjects, the author dares to reveal the true definition of the Creator and explains why the Creator has the need to create. This book contradicts and challenges the existing religions and scientific beliefs and explains in simple language the existence and mysteries of other dimensional worlds and the role that UFOs play in the evolution and preservation of the human race. Some of the material in this book is based upon "contactee" reports and observations. For instance, one of these "contactees" confronted a large lizard like being, [Saurian], who was apparently in charge of this laboratory UFO. She said to him, "you have no right to perform intrusive operations on my body". The Saurian being replied, "we have the right because we created you". This book attempts to reveal and explain the "big picture" of existence. This book is the most controversial, challenging and mind expanding writing of our times."
