## **World Without End** Ken Follett

In 1989 Ken Follett astonished the literary world with *The Pillars of the Earth*, a sweeping epic novel set in 12th-century England that centered on the building of a cathedral and the men, women, and children whose lives it changed forever. Critics were overwhelmed, and readers and listeners ever since have hoped for a sequel.

At last, here it is. Although the two novels may be listened to in any order, *World Without End* takes place in the same town of Kingsbridge, two centuries after the townspeople finished building the exquisite Gothic cathedral that was at the heart of *The Pillars of the Earth*. The cathedral and the priory are again at the center of a web of love and hate, greed and pride, ambition and revenge.

Three years in the writing, *World Without End* once again shows that Ken Follett is a masterful author writing at the top of his craft.
