The Decision to Attack: Military and Intelligence Cyber Decision-Making (Studies in Security and International Affairs Ser.)

Aaron Franklin Brantly

The Decision to Attack: Military and Intelligence Cyber Decision-Making (Studies in Security and International Affairs Ser.) Aaron Franklin Brantly
Brantly investigates how states decide to employ cyber in military and intelligence operations against other states and how rational those decisions are. He contextualizes broader cyber decision-making processes into a systematic expected utility–rational choice approach to provide a mathematical understanding of the use of cyber weapons.
