#### **Auroral Plasma Physics (Space Sciences Series of ISSI)**

The present 15th volume of the ISSI Space Science Series is devoted to Auroral Plasma Physics. The aurora is arguably the most intriguing phenomenon in space plasma physics. Not only is it the most spectacular manifestation of the Sun-Earth connection chain, but the underlying plasma processes are expected to be ubiqui tous in the plasma universe. Recognizing the enormous progress made over the last decade in the understanding of the physics of the auroral acceleration processes, it seemed timely to write a comprehensive and integrated book on the subject. Re cent advances concern the clarification of the nature of the acceleration process of the electrons that are responsible for the visible aurora, the recognition of the fundamental role of the large-scale current systems in organizing the auroral mor phology, and of the interplay between particles and electromagnetic fields. The project began in March 1999, as a natural followup of the project on Magnetospheric Plasma Sources and Losses that resulted in volume 6 of this se ries, with a planning meeting by a core-group that coordinated the project. The group consisted of J. E. Borovsky, Los Alamos National Laboratory; C. W. Carl son, University of California, Berkeley; G. Haerendel, Max-Planck-Institut fur ex traterrestrische Physik, Garching; B. Hultqvist, Swedish Intitute ofSpace Physics, H. E. J. Koskinen, Finnish Meteorological Institute, Helsinki; W. Lotko, Kiruna; Dartmouth College, Hanover, New Hampshire; K. A. Lynch, University of New Hampshire, Durham and G. Marklund, Royal Institute of Technology, Stockholm. G. Paschmann, ISSI, Bern, was the project leader."

#### From reader reviews:

#### **Margaret Watkins:**

Have you spare time for the day? What do you do when you have more or little spare time? Yes, you can choose the suitable activity to get spend your time. Any person spent their own spare time to take a go walking, shopping, or went to the particular Mall. How about open or read a book allowed Auroral Plasma Physics (Space Sciences Series of ISSI)? Maybe it is being best activity for you. You realize beside you can spend your time with your favorite's book, you can more intelligent than before. Do you agree with their opinion or you have various other opinion?

#### Freddy Lamberth:

The book Auroral Plasma Physics (Space Sciences Series of ISSI) make one feel enjoy for your spare time. You can utilize to make your capable more increase. Book can to become your best friend when you getting pressure or having big problem together with your subject. If you can make reading through a book Auroral Plasma Physics (Space Sciences Series of ISSI) for being your habit, you can get much more advantages, like add your personal capable, increase your knowledge about many or all subjects. You are able to know everything if you like open up and read a e-book Auroral Plasma Physics (Space Sciences Series of ISSI). Kinds of book are several. It means that, science e-book or encyclopedia or other individuals. So, how do you think about this reserve?

#### Gina Keller:

What do you regarding book? It is not important along with you? Or just adding material when you want something to explain what the one you have problem? How about your time? Or are you busy man or woman? If you don't have spare time to try and do others business, it is gives you the sense of being bored faster. And you have extra time? What did you do? Everyone has many questions above. They need to answer that question due to the fact just their can do in which. It said that about guide. Book is familiar in each person. Yes, it is right. Because start from on pre-school until university need this kind of Auroral Plasma Physics (Space Sciences Series of ISSI) to read.

#### William Sinclair:

People live in this new day time of lifestyle always make an effort to and must have the free time or they will get lots of stress from both daily life and work. So, when we ask do people have spare time, we will say absolutely of course. People is human not really a robot. Then we inquire again, what kind of activity have you got when the spare time coming to an individual of course your answer may unlimited right. Then do you try this one, reading guides. It can be your alternative within spending your spare time, the actual book you have read will be Auroral Plasma Physics (Space Sciences Series of ISSI).
