Set in the coastal town of Durban, South Africa, Physics for Poets is a portrayal of a generation of youth that have experienced Apartheid, death, drugs and a cultural vacuum at an early age.

Charl and Belinda, two teenagers, spend the remainder of their disintegrating relationship drinking, smoking and groping their way through the long hot summer.

Charl's holiday turns into a dizzying spiral of desperation taking him through suburban homes, decadent clubs filled with lava, seedy bars of 80's subcultures, city cemeteries, Mandela and toilet sex.
