High-Yield Cell and Molecular Biology Dr. Ronald W. Dudek PhD

High-Yield™ Cell and Molecular Biology gives you more of what you need to prepare you for the USMLE Step 1! The information found in this text provides a strong understanding of introductory undergraduate cell and molecular biology which serves as a valuable review resource for the board exam. As part of the **High-Yield™ Series**, material is presented in a concise, uncluttered fashion. The sections cover information typically found in a second year molecular biology course such as chromosomal DNA, chromosome replication and DNA synthesis, molecular genetics, gene amplification, inherited diseases and molecular immunology. Well illustrated, this text provides students with a strong foundation to prepare them for more advanced work in cell and molecular biology. It also serves as a great source for course review.
